## PROJECTS

### Academic Projects

- **ONLINE BANKING SYSTEM IN C:** Internet banking (or e-banking) means any user with a personal computer and a browser can get connected to his Banks's website to perform any of the virtual banking functions..
- **BRICK BREAKER GAME IN JAVA :** The Brick Breaker Game in Java Project is a computer game developed using Java programming language, focusing on the implementation of a classic arcade-style game where the player controls a paddle to break bricks with a bouncing ball. The goal of the game is to clear all the bricks from the screen while avoiding the ball from falling off the screen.

### Real-Time Projects

#### Under the Domain of Machine learning

- **DATA INSIGHTS APP DEVELOPMENT :** It is a web-based application that Consists of different types of chatbot. Developing a knowledge-based system to help organizations make better decisions under the domain of Data science and machine learning

#### Under the Domain of Software Technology

- **NEED IN :** As technology getting advanced but in our country large Portion of holders or owners searching for works in many ways.
- To overcome this we are moving towards technology. For this, we can introduce an app which is related to services.
- This app will helps entrepreneurs and business persons to get their holders and also helps working people or workers to get works to be popular by their works. by this if anyone want to do part time jobs they also get . We are trying to provide lot of features in this app.
